

*In addition to the cutter BEAR, San Juan was also paid a visit by the Navy's world famous precision flight team the "Blue Angels."*

*One of the great pastimes here in Puerto Rico is active participation by the tourists in games of skill, daring and chance as can be seen in this photo showing Ltjg. Fijolka, Mk3 George Hathcock and RM1 Keith Stevens playing a rousing game of "Balance the Castillo." (George had better get some rest - he looks exhausted!)*

*Finally arriving back in the United States, the entire crew of the BEAR was given a rousing welcome by the people of Fort Lauderdale, Florida.*

*Fl. Lauderdale*
