

P O R E W O R D

This book was prepared with no special purpose in mind except, perhaps, to keep memories from fading as the years pass. It is intended to be nothing more than a collection of pictures and a few lines about our activities; to help you remember the long days and nights of work, sweat, fear, anxiety, and the times of waiting. The following pages will help tell the story of life in the Fire Division.....here will be seen those who were shipmates.
