

Early picture of Station #2 shows 57005-F

STATION NO. 2

It was in April, 1943, that the Coast Guard Fire Station No.2 was established. At that time the CG 57005-F was the fireboat at No.2. First the station was without the barest of living necessities, however, it was made comfortable by its members who soon obtained a galley and recreational facilities. Fire Station No.2 acquired the CG 48012-F in December, 1944.
