

CG 30061-F shows great streams of water from her monitors

STATION NO.5

Another "tin fish" in West Basin is tied up at Station No.5 at berth 117. When the CG 30061-F was stationed at the base her crew did outstanding work on the APA fire at berth 198. According to her crew, this tin fish led a rough life before the Fire Division took her over. She must have from the looks of her. But since October of 1944, her appearance has improved immensely.

CREW OF THE CG 30061-F

Aune	Thompson	Provera
Bostwick	White	Guido
Lom	Arts	Stier
Woodward	Doyle	O'Donnell
Warren		

Pictures, far left, are of #117 men in front of their new station. Mascot, left, is the only bosun's mate on CG 30061-F.
