

Breaking up gasoline spill

Crew in position for action

THE SCANDIA

The CG 55011-F was formerly the pleasure fishing boat SCANDIA, and was familiar to sport fishermen through Southern California. She operated out of Santa Monica. She was converted to a fireboat by Fellows and Stewart Boat Works and commissioned as CG Fireboat in October, 1942. She served almost three years as a CG fire fighting unit, and during this time answered many fire calls.
