

On our last patrol off Song Ong Doc the Damage Controlmen and a group of crewmembers constructed 20 combination bench-tables to be used in a school in a hamlet about 8 miles north of Song Ong Doc. After they were painted they were loaded on a Navy Tango boat and taken to the hamlet. Tempo of operations did not permit crewmembers from DALLAS to make the presentation personally.

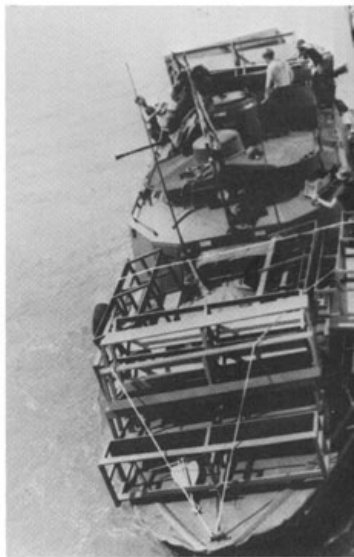

DCC DRABEL, CAPT. GUY, Senior U.S. Army Advisor MAJ. HUNSICKER and V.N. District Chief COL. DUONG discuss the building project.

At left is the old dispensary and to its right is the new DALLAS made dispensary.

Cutting lumber for the combination bench-tables.

Combination bench-tables are loaded and ready for the trip up the Song Ong Doc River.
