

ENGINEERING

LCDR IRELAND, Engineer Officer

Engineering Division headed by LCDR IRELAND is the unsung division of our ship. Without Eng. Div. our ship could not have met its operational commitments. They provided us with our water and electrical power as well as keeping our diesel and turbine engines in top running condition. There were also times when Eng. Div. came to our rescue and temporarily fixed equipment for other divisions until we could obtain new or rebuilt equipment.

LTJG REITER
Repair Assistant

LTJG TAYLOR and DCC DRABEL

CWO2 HOLLEY
Main Propulsion Assistant
