

SECOND PLATOON

David T. Allen -- Dave attended Long Island University and majored in History. He is a member of Alpha Section, and his greatest accomplishment at RIC is "just being here". Dave's long cigars and tall mugs of beer reflect his ceiling bumping build. He dreams of fun in the sun in the 7th District.

Ira H. Barry -- Ira has always been used to working on figures of all kinds. This is reflected in his degree from Concord College in Business Administration, with a major in Accounting. He excells in hunting (figures) and was the Co-chairman of Skit Night. He has requested duty on an Ice Breaker out of New York, and this, if nothing else, should give him practice in looking at "big white" figures.

Donald E. Berquist -- Go-go-go-, there goes Berquist; this has been Don here and at all the colleges he attended. He graduated from the University of Arizona, with a degree in Production Management. He was on the Yearbook Staff at OCS and requested duty at the District, Cleveland, but the scuttlebutt has it that the GO-GO Northwind is calling him instead.

David G. Boyer -- Yes, if you want to know, come to Dave, and he will tell you the answer in his slow western (Phoenix, Ariz.) manner. Dave graduated from the University of Arizona, majoring in Hydrology, and hopes to put this degree to work on an OSV out of San Francisco. Dave's memories of OCS include remaining awake in Comm class, marching Alpha Section to the wrong classroom, and his version of happiness - listening to Barry and his jokes.

Stanley E. Burgess -- The "Roadrunner", through his excellent example shown at OCS was chosen to be on the honor guard for an Admiral -- yes, he is the first clown ever chosen to such a position. This may be due to the fact that he graduated from Duke University with a degree in Sociology. Stan hopes to get an assignment to Headquarters, thereby keeping up his status as the Admiral's Honor Guard.

Thomas J. Callahan -- Aside from the Mid-western corn in him, Tom has the makings of a good officer. He graduated from Loras College and majored in History, which he plans to put to use on his duty requested - Icebreaker to Little America.
