

MORE OF THE SECOND

Gary L. Hutchens -- Texas has a reputation for producing big people, but with Hutch, they made a mistake. They went out instead of up. Hutch is trying hard to correct this situation and is going up, up, up and fly away with the birds. He's been working on this for 9 years as an Aviation Electronics Technician, and will soon come closer to realizing his dreams with a trip to Pensacola for Flight Training.

David F. Johnston -- Dave graduated from Oregon State University with a major in Chemistry. His main interests are in water skiing, and working on automobiles. He was on the social committee at OCS and has requested duty on a buoy tender in the 13th District.

Joseph J. Kennedy -- Big Joe has been in the enlisted Aviation rates for 8 years and has applied for flight training after graduation from RTC. He has a great interest in Mexican Bars, girls, the hard stuff, and Texas. (Not necessarily in that order.)

Edward W. Little -- "Red" graduated from Principia College where he majored in English. Among his hobbies are the trumpet and just generally, all music. Red has applied for duty in the 1st District and also has an application in for a marriage license after graduation. We wish him the best in both.

Brian G. McCaughey -- "Mac" wants to go to Cape May - but as an Ensign (which you must admit, is the best way). Mac's hobbies are sailing, water skiing, fishing and hunting. He graduated from Thiel College in Greenville, Penna. with a major in Biology.

John W. Mack -- A meal would not be complete without the comments of this king of the surf. If he isn't "walking with his board", he seems to be telling us about the so called "wild surf parties" on the Coast (around the Malibu area). John is bound to be the first officer in the Guard to surf behind a cutter. In his choice of the 11th District, he hopes to rise to these surfing dreams, and also (in his spare time) to serve the Coast Guard in his official capacity as an Officer.
