

25 JAN 80

This was a pretty rough period for us. We lost both of our gyros, we went aground attempting to unmoor the USNS MAUMEE, and CGNR 1356 was stranded in the Asgard Range due to mechanical failure.

On the 25th CGNR 1356 flew aboard and was immediately grounded pending more permanent repairs and GLACIER moored in Winter Quarters Bay for some serious R&R in McMurdo.
