

12 FEB 80

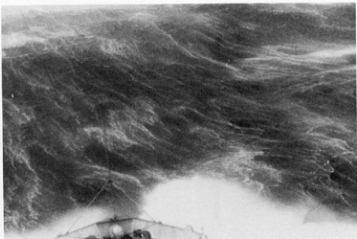

Completed all science operations and started homeward via Campbell Island and Wellington.

13 FEB 80

Crossed the Antarctic Circle northward bound at longitude $170^{\circ} - 42'E$.

15 FEB 80

Lost LCVP overboard in heavy weather and presumed it to be sunk. Our day long search proved to be unsuccessful.

18 FEB 80

Arrived at Campbell Island and anchored in Perseverance Harbor. One passenger debarked and the Australian science party and cargo embarked with the help of CGNR 1427 and our motor surf boat.
