

Prior to assuming command of the Glacier, Capt. Hammond served in CGC Staris, CGC Redwood, CGC Pt Jefferson, CGC Pt Kennedy, Osage Unit, Polar Ops, CGD 17, CGC Polar Star, HeadOps (G-010) and CGD 19(g-er)

It's regrettable that this will be **GLACIER'S** final cruise. She is an outstanding ship which has served this nation's Polar Program flawlessly over the past 32 years. However, on the plus side, a group of men and women who make up the finest crew afloat will be available for assignment elsewhere. They will take with them a dedication to service and quality of professionalism which will reflect positively on the memory of **GLACIER**. To all of you, I extend my personal thanks for a job well done on DF-87, your pride shows. The best to you and your families on your next assignment and God bless you each and everyone.

"I've heard of tight crews, but this is ridiculous."

Lending a hand in Costa Rica.

Welcoming RADM Wojnar aboard

Swim call provided a welcome break on a hot day
