"Just smile for the camera Rob".

Referred to as "Fresh Air Snipes" these men were responsible for all machinery outside Main Engine spaces. Maintenance of all Deck machinery and Vessels' Small Boats was a major responsibility. They also insured all hotel services, such as hot water, heat, air conditioning and laundry services never failed. Though few in number, they did the job of many.

"Oh No! MK1 Jackman is going to turn a wrench!"

Our lonely Ice-Machine repairman.
