

# MARINE SCIENCE TECHNICIANS

Our Marine Science Technicians participated in all phases of scientific experiments performed. They became pros at forecasting the weather for all the ships operations. They also served as lab techs and assisted visiting scientists. They maintained and operated all Oceanographic equipment and wrote detailed synoptics for the U. S. NAVY.

(L to R) MST3 Converse, MST3 Brown, MST2 Bryan, MST3 Nasse, MST3 Rielly, MSTC Buchanan

MSTC Buchanan

"It doesn't taste salty" Says MST3 Brown

MST3 Rielly searches for his lost thermometer

Everyone talks about the weather, but nobody does anything about it

"Hey guys the box said don't open until Christmas"
