

B. J. Brady, CWO3 (F&S) Supply Officer

I believe it is a Chinese saying "may you live in interesting times." My tour on **GLACIER** has definitely been interesting. Remaining after a major maintenance availability, two refresher trainings, three Operation Deep Fresses, a homeport change and now the Decommissioning. What more could you ask for in a tour!

G. F. Hillegas III, CWO4 (PYA) Medical Officer

What I will always remember, is the people onboard **GLACIER**. They are the heart and spirit of **GLACIER** and will always be special to me. I wish everyone of them the best in life, may the rest of your life be as interesting and productive as our time aboard **GLACIER**.
