

I have had the opportunity to be associated with one of the finest groups of men and women to walk **GLACIER'S** decks in many years - the "Decksies". Success can be measured by performance, meeting challenges, learning and accomplishing operational commitments. There is an added measure with this group - pride - pride in their work, pride in their accomplishments, pride in themselves. From the "seasoned old salts" to the "new kids on the block", the Deck Department met all challenges, exceeded all expectations and in part, ensured that Deep Freeze '87 was a great success. It is fitting that the last of **GLACIER'S** "Decksies" be her finest. To each and every one of them, my sincere thanks and a hearty well done. God speed.
