SN Kitchel examines film while SN Mitchell watches

SN Wisnett, "give me a pencil and I'll make a Cruise Book."

SS1 Foster, "now smile for mom"

The effort of the Post Office was greatly appreciated by the crew of the **GLACIER**. These men who were volunteered for the job, put in countless extra hours to insure that our mail service continued.

Being on the Cruise Book Committee brought special rewards and problems for those involved. To capture the places and good times of DF '87 the Photographers went everywhere with a camera always looking for that picture that would explain the times we enjoyed. Our copy team then spent late hours to add words so that the memories would not fade with time. Now that the book is done the Cruise Book Staff can say "I hope you enjoy looking through our book as much as we enjoyed making it Thank You."
