

CDR. McCreery has a very different history than most officers of his rank have. CDR. McCreery came into the Coast Guard as an enlisted man serving aboard the CGC WACHSETT. He later went to OCS and graduated with the class of 1956. Being the X.O. of a new ship like the **MIDGETT** you would expect CDR. McCreery to have alot of sea time behind him yet he has very little. His previous stations mainly include Marine Inspection Offices at Mobile, Ala; Buffalo, New York; and Long Beach, Calif.
