

# Engineering Department

*Damage Controlmen • Electrician's Mates • Electronic's Technicians •  
Firemen • Machinery Technicians • Telephone Technician*

Led by Engineering Officer LCDR 'Jerry Garcia' Oliver, AEOLTjg John 'Jimmy Buffet' Reeves, DCA & Fuel-Boy LTjg 'Henry Rollins' Goerss, Student Engineer ENS Vincent 'John Denver' Skwarek, E&E CWO4 Jim 'Dizzie Gillespie' Levesque, and MPA/Movie Officer CWO2 Jim 'Julie Andrews' Carlin, the engineers composed the single largest department on board the world's largest functional, non-nuclear icebreaker.

This group of highly trained, dedicated, and skillful MKs, DCs, EMs, ETs, and a lone TT—along with their trusty band of Firemen—kept the lights on and the shafts turning no matter what sort of hairball situation the ship stumbled into.

*- LTjg Larry C. Goerss*

**SLEEP TIGHT AMERICA:**  
DC2 Ronald Plowman keeps  
POLAR SEA safe and  
running.

*"SIX BURNIN', THREE TURNIN'... the best damn engineers in the Coast Guard.*
