

Supply: (Right to Left) CWO2 Robert C. Jacobson, SK1 Dale L. Walker, SK3 Douglas M. Sumner, SNSK Christopher N. Buckmaster, SN Oscar (n) Horne and SKCS Darrell H. Clifton.

SUPPLY & MEDICAL DEPARTMENT

CS SD SS

The beginning of a new rate, the molding of the jobs of SD and CS together. The SD had to learn menu planning, food purchasing and running the general mess; the CS learning to serve in the wardroom, maintenance of officer's country, the cabin and working as MAA of the messing areas.

The trip would allow everyone the opportunity to work in all areas of operation. \$30,000 of food was to be ordered and stored for our use and another \$15,000 worth for one of our far northern units. We sailed with close to \$70,000 of meat, fresh

produce and canned goods. Everyone in the new SS rate worked a rotating-swing shift and all became knowledgeable in each others former job.

Working together we produced 440 meals, 110 box lunches and 21 "HAPPY HOUR" snacks of pizza or tacos. 350 pounds of popcorn was served during evening movies, 1200 gallons of milk served and 3000 pounds of bread consumed.

Food consumption rises considerably in the arctic. No one knows that better than SN Goodwin.
