

A Salute to the Department Heads

Commanding Officer
Lieut. (T) W. G. Butterworth

WITHOUT the combined effort and initiative of Department heads the efficiency with which Division 5A operated would not have been possible.

Earnest and sincere, these leaders share the credit for the high tribute paid to the Division for outstanding achievement in water-front security during the war.

Several of these officers were on duty at Constitution Base at all times. Some of them lived at the Base, in order that 24-hour direction might be given to proper functioning of the Boat and Guard Details.

These are the men who made the decisions, arranged the program and directed the operation.
