

## SUPPLY

From left, the Supply Department consists of CHSPCK-2 Leon Cisek, SK2 George Ford, SK3 David Weise, SN John Hall, and SK2 Kendall Lewis.

The Storekeeper's job is to requisition supplies and maintain pay and allotment records during normal working hours, but they serve in varied posts far different from these duties during all hands evaluations such as General Quarters or Low Visibility Piloting.

One might find a Storekeeper manning sound-powered phones in the 5 inch mount, or working the Engine room Annunciators on the bridge.
