

DAMAGE CONTROL

The Damage Control Team: Chief Nielsen, DC1 Orton, DC3 Frisbie, DC3 Leventini, and LTJG Stockton, the Damage Control Officer. These versatile men combine the jobs of carpenter, cabinet maker, pipe fitter, welder, metalsmith, shipfitter, and firefighter in their everyday work.

Below: DC3 Frisbie prepares some ventilation ducting for installation.

Though we never took a hit from hostile fire, the Damage Control Team was always ready to lead the ship in putting out fires, plugging holes, and sharing up watered compartments. These are the experts in keeping the ship afloat—both before and after any attack.
